**DECLARATION UNDER 37 C.F.R. 1.130**

Dear Sir:

I, Kenneth Neri, unequivocally declare that:

1. I am an employee of Key-Tech, Inc. located at 128 Bay State Avenue, Warwick, Rhode Island 02888, USA, and as such was a member of the inventor team working on the above mentioned invention filed under U.S. Patent Application No. 10/728,048.

2. I am also a co-inventor of the claimed subject matter of the above identified patent application no. 10/728,048 ("the present application").

3. I am also one of the inventors of the invention disclosed in U.S. Patent No. 7,137,426 with a Serial No. of 10/097,717 and Publication No. of 2002/0131062 ("the Neri et al reference").

4. I conceived of and developed in the Neri et al. reference, the concept of multi-directional radiation emitters for printing a dye image on a three dimensional object, that is covered in the claimed subject matter of the present application and described in the Neri et al. reference.

5. All statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like are punishable by fine and/or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that any such willful false statements may jeopardize the validity of this application or any patent resulting therefrom.
